

## TRIP OUT TO THE BASIN ONE OF MUCH GOOD FOR ALL

### BETTER FEELING AND CLOSER RELATIONS.

Stops Made At Myton, Roosevelt and Vernal, the Latter City Sending Out Delegation to Meet the Visitors On the Desert—Some Twenty-Five Tons of Parcels Post Moved.

It was Wednesday morning, April 28th, that forty cars and trucks loaded with some twenty-five tons of mail started from Price for the communities inland of the big Utah Basin. Eighty business men here met their neighbors—men with whom they do business every day and have for many years. The plan for moving the congestion of first-class mail and parcels post at the railroad in this city was suggested by M. H. Shepard, secretary of the Price Commercial Club, and was most heartily responded to by the number mentioned. Cars were loaded to capacity for Myton, Roosevelt, Duchesne and Vernal. "At Myton," says Secretary Shepard, "the commercial club had arranged for a luncheon in honor of the visitors at one of the very best little hotels to be found anywhere. It was well prepared and served right. An hour was spent there in visiting and talking over things in common.

"Our next stop was at Roosevelt. There another hour was put in with the fellows there. All were glad to see each other. The visit with the up to date men there is one long to be remembered. We then pulled out for Vernal—possibly one of the greatest smaller towns of this Great West. That those people are alive is putting it mildly. We had a royal reception, being met several miles out of the city by numerous business and professional men. Out on the barren desert we met and had a real love feast. All got acquainted. We were assigned to our rooms for the night and told the keys of the town were ours. If we wanted anything we were just to let it be known. Only two showed a disposition to be dissatisfied. Edwin C. Lee, who had led the caravan out, desired to dance an hour longer, while another asked for hot biscuits for breakfast. Both were satisfied.

"At 8 o'clock the communityhouse was filled with people from everywhere. Vernal folks were at a loss to know what we were there for. They thought the Price boys had something up their sleeves to put over, but we assured them that we had just come over to spend the night and bring their mail. Then and there a feeling was brought out that never existed between the two towns before. Several fine talks were given by the Price and Vernal orators. This was followed with a dance, and some of the Vernal fellows very graciously presented us with their wives and daughters, while others—very reluctantly—their sweethearts. And we all left Vernal the next noon with the happy feeling that it was well to have gone to see these good people. And now, we want them to come in a body to see us. This long trip was made without an accident. All cars made the round trip.

"Rev. Ralph C. Jones went along to look after the spiritual welfare of the crowd. However, he reports he did not see fit to sprinkle any either going or coming. There was no water to do the job."

### FOUR GUBERNATORIAL CANDIDATES

Republicans in No Sense Shy of Excellent Timber.

Four candidates for the republican gubernatorial nomination in Utah are being considered, according to the reports of republican leaders, though it is considered that there is ample time for development of additional governorship (under Paul John A. Whitson, president of the University of Utah, is one of those men frequently suggested. Whitson has not indicated in any way that he will enter the race, but his supporters contend that no man in Utah should "turn down" the governorship nomination if it is offered to him by the party. W. H. Watter, president of the Utah Construction company and one of the most prominent financiers of Ogden, is considered an active candidate for the nomination. The Weber county delegation at the recent Price convention has started a fair-sized Watter boom for him. George T. Odell is an avowed candidate for the nomination, and has supporters in every section of the state. W. D. Ritter, Salt Lake City attorney, is the other of this conspicuous quartet. The campaigning for these three latter candidates has been quiet, republican leaders contending that the national situation deserves first consideration. As to the United States senatorship there is every indication that Senator Reed Smoot will be the nominee to succeed himself with the party unanimously supporting him and his record.

Not one avowed candidate has appeared for the congressional nomination of either the First or Second districts. The First district includes all of Utah excepting Salt Lake, Tooele, Davis and Utah counties. The nomi-

nation has gone to an Ogden candidate in the two last conventions and the general suggestion is being made that the honor should now be shifted to either Eastern or Southern Utah. Those suggested as possible candidates are William M. Seegmiller of Kanab, Wilford Day of Parowan, Don C. Colton of Vernal, R. L. Collett of Roosevelt and Robert L. Anderson of Manti. For the Second congressional district have been suggested Charles R. Mahey of Bountiful, Nephi L. Morris and Wesley E. King, both of Salt Lake City.

Salt Lake City is being generally favored for the three conventions, at which nominations will be made for presidential electors, governor, United States senator, two congressmen, secretary of state, auditor, treasurer, superintendent of public instruction, supreme judge and several other offices.

### QUITE BUSY QUERYING AS TO THE STATE GATHERING

State Republican Chairman Henry Welsh last Saturday sent out questionnaires to county committeemen asking when, where and how the state nominating convention is to be held. The letter suggests that Salt Lake City be the place and the date sometime between July 19th and August 8th. At this convention nominations for governor, other state offices, as well as presidential electors will be made. During the last presidential election Utah had twelve electors, four republicans, four democrats and four socialists. It is anticipated that the republican convention will have its previous quota of four. As a number of republicans have already entered the field for governor as well as many aspirants being named by rumor for other offices, the convention in the late summer promises to be of unusual interest. Welsh is hoping for an early response from the committeemen in regard to the calling of an early session at which the exact date of the convention will be announced.

### BEEHIVE PAGEANT IN JUNE PORTRAYING IDEAL WOMAN

Ideals of perfect womanhood will be portrayed by the Beehive pageant at the June conference of the Mutual Improvement association in Salt Lake City. The Beehive organization stands for the teaching and practicing of all arts and graces of true womanhood, and the pageant is designed to bring home to the girls of the church this great purpose. It was arranged by the Beehive committee and submitted to Miss Eva Betzner, pageant expert, for criticism. It will also be used by all Young Ladies Mutual Improvement association organizations on the Day of the Sevens celebration. If weather permits, an outdoor presentation will be attempted. Otherwise it will be given in the Salt Lake theater. The joint committee of the Mutual organizations is working on the details of the program for the sessions. The June conference is expected to be one of the largest in the history of the state.

### PEAK PRICES IN SHOES REACHED, TANNERS SAY

The peak of prices in footwear has been reached, but it would take three to four months for any reduction to get to the consumer, the executive committee of the Tanners' Council of the United States reported at Atlantic City, N. J., last Friday. Regarding leather relations, President F. A. Vogel of Milwaukee, Wis., said: "It has become very clear that, notwithstanding all talk about bringing about a better understanding between the employer and employee, the mental attitude of either side is still so far apart that a great struggle lies before us."

### RELIGION PROGRAM.

Recommendations for the summer program of the religion classes of the Latter-day Saints church have been outlined by the general board. During the summer months a distinctive religion class meeting will be given in all the stakes; that at least one union meeting be held; that the teachers pay a visit to the homes of their pupils; that ward principals and teachers secure the names of all the children in the ward of school age, and endeavor to enroll them in religion classes; that officers and teachers read at least one of the gospels, preferably the Gospel of St. Luke; that baseball and similar amusements be planned for boys of the seventh and eighth grades.

## BAD COLDS

Are often the forerunner of serious sickness. Check them in time and be on the safe side. Satisfactory remedy can be had at this store for a small amount.

Come to us for your drugs, medicines, prescriptions, cigars, tobacco, etc. Your prescriptions will be accurately filled here.

**Price Drug, Rexall Store**  
Main and Depot Streets  
PRICE, UTAH

You may take no thought of the morrow, but you'll find the morrow taking plenty of thought of you.

## THIS MAN COULD NOT STOOP TO LACE HIS SHOES

### GETS RID OF HIS RHEUMATISM WITH PREMIER REMEDY.

Well Known Illinois Farmer Gains Twenty Pounds Since Taking Tanlac, After Four Years of Indigestion and Aches—Friend Suggests Greatest of Many Remedies.

"Tanlac not only added twenty-four pounds to my weight, but put me in as good health as I ever was in my life," said Augustus Heigher, a well known farmer of Morton, Ill. "For four years I was troubled with rheumatism and indigestion," he continued, "and many a day I gave clean out while working in the field and had to lie down until I got strength enough to get back to the house. My rheumatism was so bad that every morning I had to rub my legs before I could stand up and my back was so stiff and painful that it nearly killed me to stoop over. My joints, too, were so stiff and sore that I could not bend over to tie my shoes. My appetite was very poor and when I did eat anything I was in misery for hours afterwards.

"I was hardly ever able to get a good night's rest because my kidneys were so badly out of order, and last spring my condition got so bad I wasn't able to work and for several weeks I could hardly get out of the house. 'The man I hired to take my place recommended Tanlac so highly that I began taking it, and to make a long story short, I haven't a pain in my body now and can do as hard a day's work as any man. I eat three square meals a day, digest them perfectly and sleep like a top every night. In fact, I couldn't ask to be in better health, and all the credit is due to Tanlac."

Tanlac is sold in Price by the Price Drug company, and by the leading druggist in every town.—Advt.

### STRIKES GRAVEL BANK AND TWO ARE INJURED

Mrs. L. V. Shearer, 46 years old and a resident of Soldier Summit and Colton a goodly portion of each year, suffered numerous bruises and abrasions at Salt Lake City a few evenings ago when the automobile in which she was riding crashed into a gravel bank at a corner near Rock Hot Springs. According to the police the accident occurred when the driver of the machine became confused by the dazzling lights on another car and could not see where he was driving. Mrs. Shearer was taken to the emergency hospital where it was found that she was not very badly hurt. The driver of the machine is said to have suffered numerous lacerations from flying glass. Mrs. Shearer's husband operates the wax mines at Soldier Summit and other properties northeast of Colton.

### RAILROAD RATES RAISE HELD QUITE NECESSARY

Freight and possibly passenger rate increases will be necessary in September, when the government guarantee ends, on account of increased wages and call for more rolling stock and general equipment, says W. E. Green, assistant general manager of the Denver and Rio Grande, who was in Utah last week. Freight and passenger traffic increase yearly from 15 to 20 per cent, and as no Pullmans and very few freight cars have been built for some time, carriers find it difficult to meet this increase with depleted equipment.

### UINTAH ROAD TO BUILD THIRTY MILES EXTENSION

Construction is to begin shortly upon a thirty-mile extension of the Uintah railroad from Watson, the present terminus, in the direction of Vernal, fifty-three miles from Watson, now reached by stage. The railroad was built by the asphalt trust and extends from a connection with the Denver and Rio Grande at Mack, Colo., to Watson, a distance of some sixty-three miles. Arthur W. Sewall of Philadelphia, Pa., is president of the company. The road was built for the purpose of reaching the glaucoma deposits of Eastern Utah.

### AN ECONOMY MOVE

Members of the general board of relief societies of the Latter-day Saints church at their weekly meeting held the other day at Salt Lake City approved and signed a pledge not to buy any new wearing apparel except actual necessities. The plan was suggested to the board by Mrs. W. J. McCoy, state chairman of the Division of Women Activities in Utah.

Report made by the Utah railroad to the state public utilities commission shows a net income for 1919 of \$69,559.25. The operating revenues were \$403,061.19, and operating expenses were \$337,456.33, leaving a total balance of \$165,604.81, from which were deducted other incidental expenditures, resulting in the net income designated.

### NOTICE OF SALE OF PROPERTY.

Sold to Carbon County For 215  
Taxes and Not Redeemed.—Whereas,  
Carbon county has received treasurer's  
certificates of sale and auditor's deed for  
the following described real estate,  
which has been sold for delinquent  
taxes for the year 1915, and the time  
for redeeming said real estate, as pro-  
vided by law, has expired. Now,  
therefore, notice is hereby given that  
in pursuance of Sec. 4685 of the Com-  
piled Laws of Utah, 1917, the under-  
signed—the county commissioners of  
Carbon county, Utah—will offer for  
sale at public auction to the highest  
bidder for cash at the north door of  
the courthouse at Price City, Carbon  
county, state of Utah, all the right, title  
and interest and estate of the state of  
Utah, the county of Carbon, and each  
school, town and other taxing district  
interested therein, and to the real  
estate mentioned below. Said sale  
will commence at 10 o'clock a. m., the  
29th day of May, 1920, and will con-  
tinue from day to day at the afore-  
said time and place until the whole  
of the following described real estate  
has been offered for sale. Dated at  
Price City, Utah, this 9th day of  
April, A. D., 1920.
